GRAIN.-Conn.-The grain market generally during the week has exhibited very few, if any, 2,000 hs. important changes. The movement of Corn has continued free, and receipts have passed from receivers to buyers, at unchanged prices. The export demand to fill country orders as well as the home consumptive demands have been free, and though the receipts show some increase over those of the previous week, yet the stock in market is unimpaired and is estimated at about 15,000 bushels.
